

23rd February 2024

Workshop/Webinar

Sharing, Exchanging and Experimenting Digital Skills

Program:

14h00 - 14h10 - Opening

Cristina Albuquerque (Vice-Rector at University of Coimbra, Portugal)

14h10 - Talks

“Online Technologies in Education: Insights from an Assessment Agency Perspective”

Teresa Restivo (Board of Directors of A3ES, Portugal)

“Assessing the outcome of the use of online tools for engineering students”

Diana Urbano (University of Porto, Portugal)

“The experience of building and using an online support for Computer Graphics learning”

Paulo Menezes (University of Coimbra, Portugal)

“Virtual Site Visits for Student Engineers and Scientists”

Mary Moloney (Munster Technological University, Cork, Ireland)

“Design Thinking and the Sustainable Development Goals – An Engineering Summer School Experience”

Kieran Ruane & Mary Moloney (Munster Technological University, Cork, Ireland)

15h10 - 15h30 - Coffee Break

“Learning by Doing – Engineering Education through small-scale Construction Projects Learning by Doing – Engineering Education through small-scale Construction Projects”

Kieran Ruane (Munster Technological University, Cork, Ireland)

“Online Laboratory for Teaching Digital Circuit Design - What we learnt from experience”

Jorge Lobo (University of Coimbra)

“Filming a site visit in 3D and 360° for an immersive rendering”

Philippe Joly (Université Toulouse III - Paul Sabatier, France)

“On Remote Student Assessment”

Reinhard Gerndt & Veronique Bizien (Ostfalia University of Applied Sciences, Wolfenbüttel, Germany)

16h20 - Round Table

17h00 - Closing
